SECTION 4.

Questions	Yes	No	Explanation:
1. Are all annular spaces between the casing(s) and the borehole for the placement of grout at least 2 inches?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	2-inch annular spaces are special standards required for wells located in and near groundwater contamination sites (such as CERCLA, WQARF, DOD, LUST).
2. Is the screened or perforated interval of casing greater than 100 feet in length?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	100-foot maximum screen intervals are a special standard for wells located in and near groundwater contamination sites (such as CERCLA, WQARF, DOD, LUST).
3. Are you requesting a variance to use thermoplastic casing in lieu of steel casing in the surface seal?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	The wells must be constructed in a vault. Pursuant to A.A.C. R12-15-801 (27) a "vault" is defined as a tamper-resistant watertight structure used to complete a well below the land surface.
4. Is there another well name or identification number associated with this well? (e.g., MW-1, PZ2, 06-04, etc.)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	If yes, please state MW-6
5. Have construction plans been coordinated with the Arizona Department of Environmental Quality?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	If yes, please state agency contact & phone number Dave Pettigrew, 602-771-4265
6. For monitor wells, is dedicated pump equipment to be installed?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	If yes, please state design pump capacity (Gallons per Minute)
7. Is this well a new well located in an Active Management Area AND intended to pump water for the purpose of remediating groundwater?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	You must also file a supplemental form A.R.S. § 45-454(c) & (f) unless the well is a replacement well and the total number of operable wells on the site is not increasing. (See instructions)
8. Will the well registration number be stamped on the vault cover or on the upper part of the casing?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	If no, where will the registration number be placed?

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY

UNDERGROUND STORAGE TANK
OFF-SITE ACCESS AGREEMENT

This Access Agreement (Agreement) is made and entered into this _____ day of _____, 2015 by and between Grand Canyon Education, Inc. (Property Owner) and the Arizona Department of Environmental Quality (ADEQ). Owner and ADEQ are collectively referred to herein as the Parties. "Property Owner" is the person, who currently owns or has principal control of the property located at:

Address: 2600 West Camelback Road
City: Phoenix, Arizona 85017
County: Maricopa
Site Name: Planned GCU 27th Avenue Office Complex
LUST# and Facility#: L# 1217.02, F# 0-000709
PARCEL#: 153-27-003A

The "Property Owner" is the person, who currently owns or has principal control of the property listed above, which is situated in close proximity to a leaking underground storage tank (LUST #, FAC #) currently being investigated by ADEQ for potential soil and groundwater contamination. Access to the property for the purpose of collecting soil and or groundwater data will provide needed information to assist ADEQ in protecting human health and the environment.

ADEQ desires to cooperate with the Property Owner, by establishing the terms and conditions under which it or its representatives will enter onto the Property to conduct its investigative activities. The proposed activities may include groundwater well drilling and installation, soil sampling, remedial equipment installation and operation, water level measurements, groundwater sampling, and soil gas sampling.

The Property Owner holds title to the Property and agrees to cooperate with ADEQ and its duly authorized agents in the investigation and possible monitoring actions to be conducted upon the Property.

The Parties hereto agree as follows:

1. The Property Owner grants permission to ADEQ or its representative to have access to the Property to undertake corrective action to evaluate a potential impact related to a off-site release from an Underground Storage Tank (UST). A "Release", as defined by A.R.S. § 49-1001.17, of petroleum from a UST on or before 10/23/97. ADEQ agrees that reasonable notice will be given to the Property Owner prior to entrance onto the Property by ADEQ personnel or contractors.
2. ADEQ agrees to perform all work in a safe and workmanlike manner, which shall conform to professional standards and practices consistent with generally accepted industry standards and shall comply with all applicable federal, state, and local laws, statutes, rules, regulations, ordinances, and orders. Such work shall be free from defects or damage, and that its representatives will take all reasonable measures and precautions to minimize disruption of each and any businesses at the Site at

all times. ADEQ will coordinate onsite activities with Property Owner's operating business to minimize disruption. ADEQ is not financially responsible for business fluctuations during onsite activities.

3. All groundwater monitoring wells shall be completed with below ground surface vaults capable of supporting automobile and truck traffic in order to prevent interference with the businesses at the Property. It is expressly understood that ADEQ shall retain ownership of any and all groundwater monitoring wells and be responsible for compliance with any Department of Water Resources filings, with regard to the wells. ADEQ will be responsible for the proper well abandonment at completion of project.

4. Upon request, ADEQ will provide to Property Owner any information, not already provided, regarding sampling plans along with the analytical results of all samples taken and monitoring done, as well as any and all final reports generated by its representatives in reference to the Property.

5. ADEQ, or its representatives, will restore the Property to substantially the same conditions as existed prior to activities under this Agreement.

6. The Property Owner shall not be responsible for any theft of or damage to any property or equipment of ADEQ or its representatives unless resulting from the Property Owner's acts or omissions or the acts or omissions of its employees, agents, contractors, subcontractors or any other person acting on behalf of the Property Owner.

7. No Indemnity, Owner and ADEQ are responsible for only their own negligence in connection with the activities conducted on the property.

8. This Agreement may be cancelled by the ADEQ Director pursuant to A.R.S. §38-511.

9. In the event of a dispute, the Parties agree to use arbitration to the extent required by A.R.S. §12-1518.

This Agreement shall be effective as of the 3RD day of DECEMBER, 2015.

ATTN: DAVID PETTIGREW, STATE LEAD SECTION

PHOENIX, AZ 85007

DOUGLAS A. DUCEY
Governor

THOMAS BUSCHATZKE
Director

Registration No. 55- 225698

File Number: A(2-2) 13 CCC

Dear Well Applicant:

Enclosed is a copy of the Notice of Intention to Drill (NOI) a well which you or your driller recently filed with the Department of Water Resources. This letter is to inform you that the Department has approved the NOI and has mailed, or made available for download, a drilling authorization card to your designated well drilling contractor. The driller may not begin drilling until he/she has received the authorization, and must keep it in their possession at the well site during drilling. Although the issuance of this drill card authorizes you to drill the proposed well under state law, the drilling of the well may be subject to restrictions or regulations imposed by other entities.

Well drilling activities must be completed within one year after the date the NOI was filed with the Department. If drilling is not completed within one year, a new NOI must be filed and authorization from this Department received before proceeding with drilling. If the well cannot be successfully completed as initially intended (dry hole, cave in, lost tools, etc.), the well must be properly abandoned and a Well Abandonment Completion Report must be filed by your driller [as required by A.A.C. R12-15-816(F)].

If you change drillers, you must notify the Department of the new driller's identity on a Request to Change Well Information (form 55-71A). Please ensure that the new driller is licensed by the Department to drill the type of well you require. A new driller may not begin drilling until he/she receives a new drilling authorization card from the Department.

If you find it necessary to change the location of the proposed well(s), you may not proceed with drilling until you file an amended NOI with the Department. An amended drilling authorization card will then be issued to the well drilling contractor, which must be in their possession before drilling begins.

Arizona statute [A.R.S. § 45-600] requires registered well owners to file a Pump Installation Completion Report (form 55-56) with the Department within 30 days after the installation of pumping equipment, if authorized. A blank report is enclosed for your convenience. State statute also requires the driller to file a complete and accurate Well Drillers Report and Well Log (form 55-55) within 30 days after completion of drilling. A blank report form was provided to your driller with the drilling authorization card. You should insist and ensure that all of the required reports are accurately completed and timely filed with the Department.

Please be advised that Arizona statute [A.R.S. § 45-593(C)] requires a registered well owner to notify the Department of a change in ownership of the well and/or information pertaining to the physical characteristics of the well in order to keep this well registration file current and accurate. Any change in well information or a request to change well driller must be filed on a Request to Change Well Information form (form 55-71A) that may be downloaded from the ADWR Internet website at www.azwater.gov.

Sincerely,

A handwritten signature in dark ink, appearing to read "David Pettigrew", with a long, sweeping horizontal line extending to the right.
